

Caution

- Do not start the project without acknowledgement of receipt of subsidy application registration (else the project is ineligible)
- There is minimum self-financing of 20% per project
- Public co-financing is essential (State, Region, Department, Inter-communal bodies, Communes, etc.)
- A cash flow sufficient to finance the project (payment of subsidy on paid invoices)

Local guidance

Implementation of the "De Garrigues en Costières" LEADER programme is the responsibility of a Local Action Group (GAL) consisting of :

- A **Programming Committee**, made up of private and public stakeholders on the territory, responsible for :
 - > Selecting projects in an objective, transparent and non-discriminatory manner (selection grids available for project initiators)
 - > Assigning subsidiaries
- A **Technical Team**, responsible for guiding project initiators :
 - > Technical support for reflection on project construction
 - > Help with preparing the subsidiary application file
 - > Orientation to potential technical and financial partners

STRUCTURE THE
CONDITIONS FOR AN
URBAN-RURAL
BALANCE

THE LEADER PROGRAMME
A support for
> YOUR PROJECTS

Derived from the European Agricultural Fund for the Development of Rural Economy, LEADER (Liaison Entre Actions de Développement de l'Economie Rural: Link between Actions for the Development of Rural Economy) is a European fund allowing the co-financing of public and private projects that are part of the territory's collectively prepared strategy. A global envelope of more than **2.4 million euros** has been assigned to the "De Garrigues en Costières" GAL to support projects up to the end of 2021.

You have an idea or a project ?

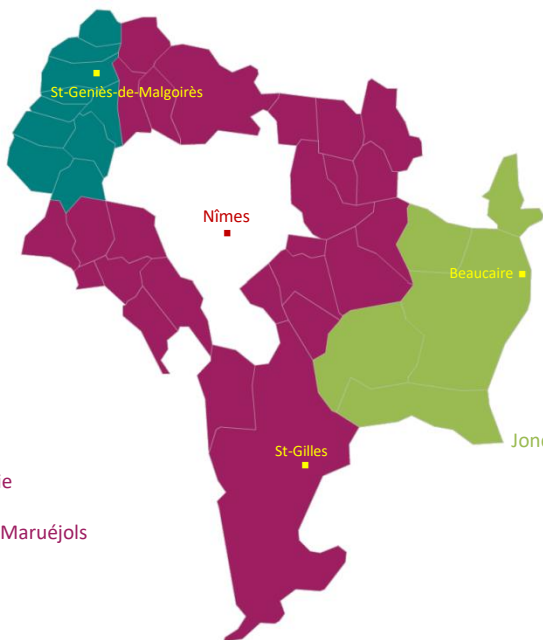

You are a **private or public** stakeholder and you want to implement an innovative project? You can ask for help from LEADER if :

- > You are an association, a company, a community, etc.
- > Your project falls into one of the four following themes :

Food governance | **Valorisation of heritages**
Local ecotourism | **Local usages and practices**

> Your action takes place on GAL territory :

Bernis

 Sauzet
 Beaucaire
 Bellegarde
 Fourques
 Jonquières-Saint-Vincent
 Vallabrègues

The "De Garrigues en Costières" LEADER Programme must make it possible to structure the conditions for urban-rural balance via 4 themes :

Establish a food governance based on the territory's complementarities

Projects must allow :

- Development of local short-circuits
- Promotion of local production
- Increased awareness of the importance of a healthy diet, taste and responsible consumption

Appropriate and pass on the territory's heritage, environmental and cultural assets as a factor of cohesion and attractiveness

Projects must allow :

- Dissemination of know-how and development of knowledge
- Restoration, preservation and valorisation of heritages
- Passing on and appropriation of heritage assets

STRUCTURE THE CONDITIONS FOR AN URBAN-RURAL BALANCE

Guide the structuring of local ecotourism

Projects must allow :

- Support for diversification of the tourism offer
- Guidance for networking of stakeholders
- Development of new communication methods and tools to disseminate knowledge and valorise the offer

Support local usages and practices

Projects must allow :

- Support for new services to respond to the problems of transport and organisation of work
- Reinforcement of citizenship and community life
- Better accessibility and legibility of existing services and facilities
